Calendar.

May 21—Red Cross class, Town Hall.
25—Victoria Day.
25—Dance at Holborn Hall.
29—Meeting of Spruce Grove M. D. ratepayers in Wintburn Hall.
June 3—Wednesday half-holiday in Stony Plain.

Wait for This!

The Ladies' Aid of the Union Church is putting on a play the first week in June.

Watch The Sun for the date.

The title of the play is "Strictly Business," and it's a hilarious of humor—don't miss seeing it.

Cast of characters follow—
Mrs. Ogilvie, a farmer's wife. A. Wright
Miss Ogilvie, a girl from the city.
—R. Robertson

Mrs. Hustle, who hears things over the phone—L. Kosciuszko
Mrs. Bolter H. Landy
H. H. Fuller M. Clarke
Mrs. Fuller M. Malloch
Miss Jane Golding G. Oatway
Mrs. Lodge, Sec'y L. Lory
Mrs. Gardwell, Pres. D. Clarke
Mrs. Power I. Smith
Mrs. O. Grogan, the Irishwoman—M. Brooks
The Minister M. Michael
The Minister's Wife V. B. Dinthie
Their little daughter—

A Local Manufacturer Gone.

Mr. Hori's place north of town was raided last week by enforcement squad of the G. L. C. Board, when liquor and a still were found.

Ferd's still was found by following a ladder 12 ft. down his well, and then stepping off into a room dug out of one side of the well. Two 50-gal. casks, a copper worm, and a quantity of liquor were found. A sample of the latter is said to be 85 p.c. proof spirit.

For having for sale, liquor not legally purchased from the liquor board, Ferd was fined \$350 or 3 months. On a charge laid by the Inland Revenue Dept. of being in possession of a still he was fined \$500 and costs or 6 months' hard labor, with an additional month at hard labor, as part of the penalty.

"I'll go to jail," said Ferd. As the 3 and 6 months' terms are to run concurrently, he will serve 7 months' hard labor in all. The G. L. C. Board got the liquor, and the I. R. Dept. got the still.

LOCAL NEWS.

Today is Ascension Day. Monday next is Victoria Day, a public holiday. The places of business in Stony will be closed.

Mr. Otto Wudel, Wetaskiwin, was in Stony on Tuesday. John Knebel and wife, of Stratheona, motored to Stony on Saturday, on a visit to old friends.

Mr. C. E. Clarke, formerly principal at the local school, moved his household goods on Friday to his new home at Red Deer, where he is in the garage business.

Mr. Chas Schultz has purchased a 15-30 tractor and 22' breaking plow. Charlie is having another well drilled for on his farm.

Mr. Marjprop Ropp arrived from the old country on Saturday, and is visiting with Mr. G. Heichen, north of town.

Mr. Jas Christie, of Edmonton, who purchased the old Russell property at Main and Railroad avenue, is having the corner store renovated and put in shape. This gent moved out to Stony last week with his wife.

Passengers for Edmonton will note that the 5:43 morning train does not now stop at Stony. The Prince Rupert express comes thru, going east, at 7:15 every morning except Tuesday.

Rev. Whelan and Mr. Chas. Witherspoon are now operating Ford Cars.

Jack Hairroll, the town's official cow-catcher, is leaving this week for his ranch at Onoway.

Mr. Jas E. Reilly, who was in Stony Saturday, told The Sun that, on hearing of the very poor postal service Stony at present has, he got in communication with Hon. Charles Stewart, Minister of the Interior, Ottawa, regarding this matter. In reply, this gentleman assured Mr. Reilly he would bring the matter to the attention of the postmaster-general, and it is probable we may see an improvement in the service before very long.

A number of inquiries have already been received at The Sun office regarding gopher tails and crows' feet. Those interested may see the Regulations regarding the competitions for these just received from the Game Commissioner, hanging in The Sun window.

Saturday's train from Prince Rupert came thru about ten hours late.

See M. Mecklenburg, the old reliable, long experienced, highly qualified and well established Eye Expert, at his office Edmonton, Hodge Bldg., or at Stony Plain Hotel on Monday May 25, and at Wabamun on Tuesday May 26. The best glasses at reasonable prices.

C. N. express money orders are now on sale at Clarke's Drug Store.

The Value Of Good Roads

It has been said, and unquestionably truthfully said, that the world has made greater material progress in the last one hundred years than in the preceding one thousand years. The last half of the nineteenth century and the first quarter of the present century has worked a veritable revolution in the lives of people in all civilized countries as a result of the marvelous discoveries and inventions which have marked this period. Advancements made in methods of transportation, in means of communication, in the science of medicine, in systems of education, in forms of entertainments are so manifold and far-reaching that lengthy articles of a most interesting character could be written with reference to each of them.

Each new discovery and invention now has an almost immediate effect in relegating the product of a preceding discovery to the scrapheap. In former times it took a long time for a new discovery to find ready acceptance by the people as a whole, and more often than not the inventor was a man without honor or recognition by his own generation. In this age, however, new discoveries and inventions are accepted and adopted with unprecedented rapidity, regardless of the effect their adoption may have upon existing customs and organizations, and despite the fact that their adoption means "scrapping" millions of dollars worth of articles and equipment now in use.

It is only necessary to point to the almost universal adoption of the automobile in the short space of two decades, and the even more amazing development of radio since the close of the Great War. The effect of one new industry on an older one is shown in the almost complete abandonment of the manufacture of carriages and buggies since the automobile came to the fore, while the popularity of radio has played havoc with the manufacture and sale of phonographs and by bringing lectures, concerts and entertainment of various kinds right into the home, is having a direct effect on attendance at and the financial success of popular forms of entertainment, albeit it has had the effect of enormously widening the circle of people who can enjoy these things.

The automobile is rapidly forcing another development which is having a profound influence on the life of our modern life. This is the construction of good permanent roads. No longer is a community willing to put up with poor, ungraded highways. The automobile has taught people that a poor road is a far greater expense than is the cost of a good one. Today bad roads are the accepted sign of an unprogressive, backward community.

The creation of a comprehensive system of good roads, while not in itself spectacular, has a profound influence on the life of any province or country. Combined with the ease of transportation which the automobile provides, such roads encourage travel within one's own country, thus extending knowledge and exerting a broadening influence leading to a removal of insular prejudices. Such roads are a big factor in reducing the cost of moving the products of the farm to market centres, whether moved by horse drawn or motor driven vehicle.

The development of good roads in Canada is not only enabling Canadians to become better acquainted with their own country, but such development is year by year attracting an ever increasing number of tourists from the United States. The number of touring parties in 1924 was fifty per cent. greater than during the preceding year, and it is conservatively estimated that these United States tourists expended no less than one hundred million dollars while in the Dominion, a sum which certainly yields a handsome return on the money invested in these roads.

Canada, with its wonderful scenic attractions, its bracing northern air and fine summer weather will more and more prove an attraction to the people of the United States in their desire to enjoy a real holiday away from the heat and congestion of their large cities. The automobiles makes it possible for whole families and tourist groups to come at less expense than is involved for a number of people in railway transportation, and they can enjoy liberty of movement which is not available by rail.

All that is necessary to enormously increase this tourist traffic is better roads and more of them. The initial cost of such highways is high, but that they are paying investments, not only in reduced costs of haulage for our own people, but through the expenditures made by tourists, is being demonstrated wherever such good road systems have been created.

Radio Sets For Arctic

Seaplanes of Macmillan Expedition Are Well Equipped

Two different radio sets designed to cover all possible contingencies will be used by the seaplanes of the Macmillan Arctic expedition this summer.

One of the planes will carry a standard navy aircraft spark set, and the other a short wave radio set, with which remarkable long distance results already have been attained.

The Thetis, base ship of the expedition, will be equipped with two five kilowatt transmitting sets. Through this combination the expedition expects to be able to keep in touch directly with points in Canada and the United States.

Timber Trade In B.C.

British Columbia continues its rapid rate of expansion in the timber trade, according to returns compiled by the minister of lands. These figures show that the revenue of the forest branch for the month of March this year amounted to \$235,000, as compared with \$279,000 in the corresponding month last year.

E. P. Ranch Sells Sheep

Five shags valued at \$3500 from the ranch of the Prince of Wales at High River, Alberta, were recently shipped through North Portal, Sask., enroute to L. W. Outten, Lisle, Illinois, U.S.A.

W. N. U. 1577

Try Out Amphibian Plane

Results of Test in U.S. Are Entirely Satisfactory

An amphibian aeroplane designed by Captain Charles Nungesser, French war ace, for wealthy customers who prefer the freedom of the air to crowded automobile roads, has been tested in U.S.A. The results of the test were said to have been entirely satisfactory.

The plane has a land chassis which can be drawn up when the landing is made on water. It carries three passengers and a pilot, has a cruising speed of 73 miles an hour and a cruising radius of 300 miles.

B.C. Lumber Shipments

Lumber exports from British Columbia during the month of March aggregated 28,177,000 board feet, more than half going to the Orient and the balance divided between the Atlantic seaboard, United Kingdom and continent, Egypt and the Antipodes. So far this year the port has moved over 70,000,000 board feet.

Vancouver As An Important Port

Vancouver is now the second port on the Pacific coast in deep-sea port tonnage handled and fourth in total net tonnage, according to figures compiled on port tonnages during 1924 by the Vancouver Merchants' Exchange.

For Aches and Pains Use Minard's Liniment

Synthetic Food

Time May Come When Food Will Be Produced By Laboratory Methods

A new era in the history of mankind, when human beings will subsist entirely on food produced synthetically, is forecast by U.S. Secretary of Commerce Herbert Hoover, following a successful experiment by chemicals in which sugar was made by passing light rays through formaldehyde.

If sugar can be made synthetically then starch and numerous other foods probably can be produced through the same chemical process, Hoover declared. He described the sugar producing experiment as the greatest chemical discovery of the last fifty years, because of the new fields which it opens up and of the possibilities which it holds.

Scientists see the time coming, when through the increase of population, it will be necessary for man to get at least a part of his food through such laboratory production.

"DIAMOND DYE" IT A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions for simple way women can dye or tint lingerie, silk, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

"Buy 'Diamond Dyes'—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods."

Annual Egg Production

It is estimated that the production of farm eggs in Canada for 1924 was 212,648,855 dozen of the value of \$50,322,459, as compared with 207,186,500 dozen of the value of \$48,770,738 in 1923.

MOTHERS PRAISE BABY'S OWN TABLETS

Mrs. L. M. Brown, Walton, N.S., says: "I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones." Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure guarantee that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative—mild but thorough in action—which never fails to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. In fact they banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sells Large Estate

Several portions of his large estates in East Sussex have been sold by the Duke of Devonshire. He is selling the historic Beaulieu Priory at Wimborne, which was founded in the reign of King Alfred. The Duke has made the holding of vast estates quite impossible for Englishmen or even the greatest wealth.—Ottawa Journal.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoclonic Acetylsalicylic Acid (Aspirin) and is the only public name for Aspirin. The Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Another Triumph For Prince

Has Tightened Empire Bonds By Gaining Good Will of Dutch

The unexpected warmth and enthusiasm with which the Prince of Wales has been greeted in the Dutch stronghold of South Africa as well as in the British centres is delighting both political and social circles at home.

Unquestionably the Prince has scored the greatest personal triumph of his triumphant career as imperial ambassador. The timeliness of his visit, the skill of his personal diplomacy and the charm of his manner, have combined to make this trip one of the happiest moves in many years for the strengthening of the bonds of the empire. Official circles in London do not attempt to conceal their satisfaction and credit the recent decision of the South African Government to give Great Britain most favored nation treatment of the new tariff schemes to the better atmosphere produced by the presence of the Prince. There is not a dissenting note in the reports from South Africa, both press and official, with regard to the outstanding success of the tour.

Starts Trip Around World Without Money

Man, 35, Hopes Book Describing Travels Will Pay For Law Course

"King" Cole (named Samuel H. Cole when he came into the world at Hagerstown, Md., thirty-five years ago) recently started a penniless journey around the world, his goal being a Cornell University law degree at the age of 42.

Starting life as a newsboy, he became popularly known as "king of the American newsboys," and still returns spontaneously to the profession of his youth. Responsible for his success, he has seen many of the sights and conversed with many of the famous men of the world. Just now his ambition is a law course as a special student in Cornell University. Hence the globe striking journey without cash, which is to furnish material for a book, to be dedicated to Cornell, and which he expects to furnish the wherewithal for his law education.

Worms are encouraged by morbid conditions of the stomach and bowels, and so subside. Miller's Worm Powder will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

Guards Radium Carefully

No Chances For Theft From Prague Radiological Institute

Great ingenuity has been displayed by the Prague Radiological Institute in protecting the radium in its possession, and the methods are regarded as so complete that the kindly old professor responsible for the safety of the treasure has no fear of burglars.

The priceless substance, first of all, is stored in tiny stoppered phials, and these in a larger glass container completely sealed by fusing the orifice. Next comes a thick-walled lead box, which is carefully locked up in a modern indestructible safe. All around the safe, a few inches apart, hang loose chains, making it impossible for anyone eaves to approach the safe without moving them. The slightest movement of a chain rings an alarm bell in the watchman's quarters.

Keep Minard's Liniment in the House

Pilgrim Bell Again Heard

The large pilgrim bell of the Basilica of St. Anne de Beaupre, which fell from its belfry in the fire of 1921, and was damaged, was heard May 2 for the first time since it was mended. The bell was recently returned from Belgium, where it was repaired.

Young Mother Regains Health

And Now Recommends Dodd's Kidney Pills to All Similar Sufferers

Mrs. Wm. Maddix suffered from a weak back. St. Gilbert, P.E.I.—(Special).—"I am the mother of three children and after the birth of the eldest my back was very weak," states Mrs. Maddix, a well known resident of this place. "Later it became very painful, until last winter it got so bad that I could hardly stand. I then took four boxes of Dodd's Kidney Pills which completely relieved me. I have great confidence in them and recommend them to all my friends."

Mrs. Maddix's trouble came from the kidneys as is evidenced by the relief she got from Dodd's Kidney Pills. When the kidneys become clogged or out of order, the circulation becomes sluggish, the impurities are not strained out of the blood and the result is weakness and lack of energy all over the body. This condition is not only dangerous but dangerous to the kidneys. The impurities in the blood are the seeds of disease.

Because homes in Hungary contain little, if any, wood, the danger from crossed electric wires is so small that insurance companies do not inspect wiring.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Ross' Soledad Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them with this oil, and the result will be the prevention of pain in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A new film process shows that the domestic fly can carry as high as 7,000,000 typhoid germs.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Gray's Worm Exterminator.

Mayo Calls Gland Treatment Hump

Transplantation of monkey and other glands in the human body was declined of any value by Dr. William J. Mayo, of Rochester, Minn., in addressing the congress of American Physicians and Surgeons at Washington. The public had been "humped" with impossible claims, he said.

Urgent Need of Research Work To Overcome Heavy Loss To Farmers From Plant Diseases

K. S. Archibald, director of experimental farms, believes that there is urgent need of research and experimental work. Referring to the losses sustained by farmers on account of lack of knowledge in controlling various plant diseases, he is reported to have said:

"The annual losses in our field crops alone reach a staggering total. For example, grain smuts cause an annual loss of upwards of \$15,000,000, and grain rusts cause an annual loss of some \$5,000,000 to \$10,000,000. Losses from potato diseases annually total from \$1,000,000 to \$5,000,000. Crop production is low in many areas, due to insufficient knowledge of moisture control or cultural methods, or for the lack of suitable types and varieties of crops. The total amount of these losses is beyond estimation. Crops formerly grown successfully in some parts of Canada are now produced with low yields and high costs."

Production costs in nearly every field, orchard, garden or animal product, are far too high, due to low yields, inferior quality and to heavy and often uncontrollable losses. Canada's prosperity depends largely on agriculture, and in turn agricultural prosperity depends on our ability to satisfy local markets and produce a large surplus of superior quality for export. Unless this surplus is produced at a cost per unit sufficiently low to compete with other exporting countries, then our export trade, in fact, our agricultural prosperity, is curtailed, if not doomed."

"There never was a time in Canada's history where careful investigation and experimentation, in all the many problems of production and loss, were so much needed nor offered such excellent returns."

"Agricultural experimentation and investigation are not the 'frills' added to model farms, but actually constitute the purpose and almost the entire work of these government-operated institutions."

Estimated Crop Acreage

May Be Slightly Less Than Last Year In Prairie Provinces

Crop acreage in the western provinces this year will be slightly less than last year, according to the first weekly crop report issued by the Canadian Pacific Railway. According to preliminary figures Manitoba will sow about 2,645,000 acres this year; Saskatchewan, 2,655,182; and Alberta, 2,721,689, making a total area of 13,121,872, which compares with 14,153,905 in 1923. Saskatchewan is the only province to show increased acreage this year. New breaking and summerfallow in that province remain about the same as last year. Fall ploughing however, shows a considerable increase, amounting to 2,838,564 compared with 2,582,125 in 1923.

Dairy Export Trade

Amount of Dairy Products, Exported Continues to Increase

Exports of dairy products from Canada last year continued to increase and the aggregate value rose from \$26,345,689 in 1922 to \$41,561,730 in 1924, according to a report of the federal department of agriculture. Cheese exported in 1924 amounted to 121,465,600 lbs., compared with 116,301,900 in 1923; condensed milk, 40,250,600 lbs., against 41,022,308 lbs.; butter, 12,248,239 lbs. compared with 12,123,512 lbs.; milk powder, 7,264,247 lbs., against 4,572,338; fresh cream, 4,234,822 gals. compared with 2,693,747 gals.; and casein, 57,050 lbs., against 6,210 lbs.

Saskatchewan Poultry

743 Tons of Poultry Shipped From Province Last Year

Poultry tonnage shipped in car lots in Saskatchewan during 1924 was almost double the total for 1923, according to returns furnished by the transportation branch of the bureau of statistics. In 1924 a total of 748 tons of poultry was shipped from the province, as compared with 360 tons the previous year.

Out of the total population of 300 at Saskatchewan, P. 170 are 60 years of age or older.

W. H. U. 1977

Conditions Good In The West

SIR JOHN AIRD

President and General Manager of the Canadian Bank of Commerce, who recently made a trip through the prairie provinces, and states that he found the general state of business in the west to be on a sound basis.

Saskatchewan Butter

Considerable Increase in Production Is Shown by Figures Presented

Creamery butter production in Saskatchewan during March amounted to 114,322 pounds, as compared with 112,250 pounds in the previous month, according to a report issued by the provincial dairy commissioner. Production for the first quarter of the year amounted to 1,917,961 lbs., compared with 1,632,839 lbs. in the corresponding quarter of the previous year, an increase of 19.3 per cent.

How the C.N.R. 1924 Dollar Was Spent

The full circle shown above represents the gross income dollar of the Canadian National Railways in 1924. The circle is divided into a number of segments each of which represents the proportion into which the dollar was broken up for expenditure in the directions named.

The total amount spent on these items, in dollars and cents, is as follows:

Labor	\$127,516,017.40
Fuel	28,065,471.98
Material, supplies and other operating expenses	63,089,441.81
Taxes	4,688,598.56
Equipment and facility rentals, etc.	6,800,561.00
Balance available to apply on fixed charges	14,772,337.82
Total	\$244,306,413.65

This chart is interesting in that it is a guide to the part which the dollar of the Canadian National Railway plays in the business of the country as a whole. It is not an idle dollar. Nearly all of it remains in circulation and finds its way into every channel of industry and commerce.

As can be seen, wages paid to employees constitute, by far, the greater portion of expenditure. These are almost 100,000 employees who get their share of the company's revenue twice a month, and the money, therefore, circulates from one end of Canada to

Increased Population Would Solve Many of the Problems Now Facing the Dominion

May Take Canadian Horses

Prospect of Good Market in Germany

With the removal of the ban on horse importations into Germany by the government of that country, there may be a market for Canadian horses there, says the latest report of the department of trade and commerce. The class of animal wanted in Germany is of the farm type, well broken and weighing about 1,400 to 1,600 pounds. These horses sell at present for about \$80 to \$90 marks or \$124.50 to \$134 per head. The present duty on horses is \$12.54 per head for animals valued at less than 1,900 marks.

Receives Large Cattle Order

Three Thousand Head From Alberta Going to Scottish Firm

H. P. Keady, president of the livestock producers of Alberta, recently declared that he had received an order for 3,000 Canadian cattle to be delivered next fall to a Scottish firm and he pointed to this as proof that Canadian cattle were in demand in the Old Country and were receiving a preference over Irish cattle from Scottish feeders. He stated that by June 27 his company will have shipped 10,000 cattle to the Old Country from Edmonton.

The highest wind speed ever recorded was during the typhoon at Hong Kong in August, 1923, when one gust was recorded as travelling 127 miles an hour.

"We are short on population, long on taxation and legislation." That is how Sir John Aird, president and general manager of the Canadian Bank of Commerce, describes the position of Canada as reported by the Manitoba Free Press.

"His remark on population, legislation and taxation came as the result of a question as to his opinion on the best solution for the railway problem with which Canada is faced. Sir John believes that an addition during the next few years of two millions to Canada's population will settle the question and that with federal and provincial governments and railways working harmoniously together, it should not be impossible to reach that figure. However, he remarked a journey through Canada was convincing proof to the most pessimistic of the country's inherent stability. "No, it is certainly not going to the bottom," he said.

General conditions in Western Canada, Sir John observed, are perhaps a little better than in the east, with the exception of Ontario. The manufacturing sectors are slightly depressed, although the retail business is now showing improvement. The depression in manufacturing was due more to over development during and immediately following the war than any other cause and an increase in the output and consuming population would speedily put the manufacturing on a substantial basis.

Winter Loss Was Small

Alberta Beeskeepers Are Laying Good Foundation For Industry

Winter loss among Alberta bees has been small, according to reports received by H. T. Luther, of Lethbridge, secretary of the newly organized Alberta Beeskeepers' Association. At the experimental station at Lethbridge the winter loss was 3% per cent, while other members of the association report under 10 per cent. The few heavier losses in all cases seem to be due to the beeskeepers' letting their bees go into the winter in poor condition. The Beeskeepers' Association executive are studying every phase of the business in the province and are determined to lay a broad foundation for this industry in Alberta.

Exports Of Flour

Value Of Flour Exported From Canada During Past Eight Months Exceeds Last Year

Exports of flour from Canada during the month of March amounted to 1,285,240 barrels, with a total value of \$10,972,554, which compares with exports of 1,237,810 barrels, valued at \$7,122,601 in March, 1924. Total shipments of wheat flour for the eight months ending with March last, were 7,565,314 barrels, with a value of \$53,166,872, compared with 8,265,111 barrels, worth \$44,364,432 in the same period a year ago.

Franco-Canadian Trade

Permanent Exhibition of French Products May Be Placed At Montreal

Anxious for ever greater development of Franco-Canadian trade, a number of French business leaders are favoring establishment in Montreal of a permanent exhibition of French products where Canadian buyers could examine the wares and give their orders to manufacturers' representatives. Henri Jones, president of the Chamber of Commerce Francaise de Montreal, declared on his return from Paris.

Meeting of Western Canada's Mayors

Meeting of Calgary's mayors are to meet in Edmonton on July 13, during the Edmonton summer fair, to discuss such questions as banking, credit, Oriental trade, immigration and colonization. The conference will include delegates from British Columbia, Alberta, Saskatchewan and Manitoba.

Beeskeepers in Manitoba

The 1,500 beeskeepers in the province of Manitoba with 21,143 colonies, produced 1,362,000 pounds of honey, worth \$195,000 in 1924, according to a report issued by the provincial department of agriculture.

Copyrighted, 1922, by Rafael Sabatini
 "CAPTAIN BLOOD," a Vignette picture with J. Warren Kerridge
 In the title role, in an adaptation of this thrilling novel.

CHAPTER XX.

Hostages

Peter Blood made his way through the house to the wide piazza behind it, in whose shade were Colonel Bishop and his Lord Julian Wade.

"I have sent for you, Captain Blood, because of certain news that has reached me," the Deputy Governor said. "I am informed that yesterday evening a frigate left the harbor having on board your associate Wolverstone and a hundred men of the hundred and fifty that were serving under you. His lordship and I shall be glad to have your explanation of how you came to permit that departure."

"Permit?" quoth Blood. "I ordered it."

"Sounds! Whither has Wolverstone gone?"

"To Tortuga. He's gone with a message to the officers commanding the other four ships of the fleet that is swarming me there, that the what's happened and why they are no longer to expect me."

"You hear that, my lord? Beliebrately he has let Wolverstone loose upon the seas again—Wolverstone, the worst of all that gang of pirates after himself. It's treason! It's matter for a court-martial."

"Will you cease your blather of treason and court-martial? Blood put on his hat, and sat down unbidden. 'I have sent Wolverstone to inform Hagthorpe and Christian and Yverville and the rest of my lads to quit piracy or sail out of the Caribbean Sea. That's what I've done. Colonel Bishop belittled his protest, but Lord Julian was more conciliatory."

"It is possible," Lord Julian admitted, "that my Lord Sunderland will be satisfied, provided that the soldiers as you promise. Speaking on behalf of my Lord Sunderland, I am content to await the result of your experiment."

"Ah, you, indeed?" Bishop roared. "Well, then, I am not."

"Then I'll be waiting for you both a very good day." Blood averted his feathered head, and made them a leg very elegantly.

"Before you go," said Bishop, "and to leave you from any side harbor, I'll tell you that the Harbor-Master and the Commandant have their orders. You don't leave Port Royal, my fine gallows bird. Damn me, I mean to provide you with permanent moorings here, in Execution Dock. You do not leave this house. He took a step in the direction of the doorway, and raised his voice. "Hear there . . . he was beginning to call."

Captain Blood's right hand had emerged from the breast of his doubt-

let, bringing with it a long pistol with silver mountings richly chased, which he leveled within a foot of the Deputy-Governor's head.

"Don't stir from where you are, my lord, or there may be an accident."

And my lord, who had been moving to Bishop's assistance, stood instantly arrested. The Deputy-Governor was swaying on unsteady legs. Peter Blood considered him with a grimace that increased his panic.

"I marvel that I don't pistol you without more ado, ye fat blackguard. Be good enough to give me your arm, Colonel Bishop. Come, come, man, your arm."

Bishop obeyed. Captain Blood tucked his left arm through the Deputy-Governor's proffered right. Then he thrust his own right hand with his pistol back into the breast of his doubt-

let, bringing with it a long pistol with silver mountings richly chased, which he leveled within a foot of the Deputy-Governor's head.

"No, no. All I want is that ye insure my safe departure from Port Royal. Ye've given certain orders to your Harbor-Master, and others to the Commandant of your plaguey fort. Ye'll be so good as to send for them both aboard here, and inform them in my presence that the Arabella is leaving this afternoon on the King's service, and is to pass out unimpeded. And so as to make quite sure of their obedience, they shall go on a little voyage with us, themselves. Here's what you require. Now write—unless you prefer the rack."

Bishop glared at him; then, shrugging heavily, he took up the pen and sat down at the table. In an unsteady hand he wrote that summons to his officers. Blood dispatched it ashore; and then bade his unwilling guest to wait.

"I trust, Colonel, your appetite is as stout as usual."

The Captain felt to with a good appetite. But before he was midway through the meal came Hayton to inform him that Lord Julian Wade had just come aboard, and was asking to see him instantly.

"I was expecting him," said Blood.

"Fetch him in," Blood signaled to the servant, who was standing behind Bishop. "Set a chair for his lordship. Hayton, send his lordship's boat ashore. Tell them he'll not be returning yet awhile."

"What's that?" cried his lordship. "Blather me! D'ye mean to detain me?"

"Just to make myself and my lads here safe from Colonel Bishop's galleys. There's not a ray of his hand gone ashore to summon the Harbor-Master and the Commandant of the fort. Once they are aboard, I shall have all the hostages I need for our safety."

"You fool," his lordship said. "Do you dream that I came aboard your pirate ship without taking my measures? I informed the Commandant of exactly how you had compelled Colonel Bishop to accompany you. Judge now whether he or the Harbor-Master will obey the summons, or whether you will be allowed to depart as you imagine."

"I'm sorry for that," said Blood. "But not on my own account. It's the Deputy-Governor there I'm sorry for. D'ye know what ye've done? Sure now, ye've very likely hanged him."

"My God!" cried Bishop in a sudden increase of panic.

MINARD'S Relieved His Rheumatism

Here is one of many letters testifying to the relief Minard's gives in cases of rheumatism. "I have been relieved of rheumatism by your liniment. I thought I would never be free from this misery and I tried many remedies, but Minard's was the only one which gave me relief."

ALPHONSE RICHARD, St. Samuel, P. Q. Minard's is also splendid for stiffness of the joints, sprains, bruises, etc.

MINARD'S LINIMENT

After Every Meal

Pass it around after every meal. Give the family the benefit of its aid to digestion. Cleans teeth too. Keep it always in the house.

Costs little—helps much.

WRIGLEY'S

me the honor to design for me. I'm disposed to agree with you; so I'll take to the sea again. I'll be getting back to Tortuga and my business."

"My God!" quoth the Deputy-Governor. "Ye . . . ye never mean that ye'll carry me to Tortuga?"

"No, no. All I want is that ye insure my safe departure from Port Royal. Ye've given certain orders to your Harbor-Master, and others to the Commandant of your plaguey fort. Ye'll be so good as to send for them both aboard here, and inform them in my presence that the Arabella is leaving this afternoon on the King's service, and is to pass out unimpeded. And so as to make quite sure of their obedience, they shall go on a little voyage with us, themselves. Here's what you require. Now write—unless you prefer the rack."

MINARD'S LINIMENT

Has Had Romantic Career

W. H. Nursey at Eighty is Writing Autobiography

Walter H. Nursey, who has just passed the eightieth milestone of his romantic and checkered career, and who is known from coast to ocean in Canada, is now completing an autobiography called "The Vicissitudes of a Vagrant."

Few men have had so unusual a career as Nursey. He was in India and China before coming to Canada at the age of 20. He farmed near Hamilton, and was a banker in Toronto. He roamed the plains with the bison, portaged the rapids of the Mackenzie with the early fur traders, was deputy minister of agriculture in the first Manitoba Government, mixed in Mexican and Hawaiian revolutions, has written books and edited newspapers, has been publisher, manufacturer, company promoter, and was a friend of Sir William Van Horne, Lord Strathcona and Lord Dufferin.

Nursey has just recovered from a severe illness. "When I look back over my life the sights and sounds of a vast brother are vivid in memory, the grey dawn breaking in camps on the northern trails, the crunch of heels in the snow, and the yelps of huddles harnessed once more to the sled. I'd like to be young again, just to live my life over."

BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised by a Nova Scotia Lady

Among the well known and esteemed residents of Hantsport, N.S., is Mrs. Amanda Woodworth. Some four years ago Mrs. Woodworth had the misfortune to lose her husband, and as a result of caring for him during his illness, and attending to farm duties, she became terribly weak. Mrs. Woodworth says she felt as though her blood had turned to water. Her first notion would have been tired and breathless. She was often attacked by spells of weakness that left her almost speechless, and frequently suffered from severe headaches. The medicines she took did not help her, and she almost despaired of gaining her health. In this condition she one day read in a newspaper of a case very similar to her own, in which health was restored through the use of Dr. Williams' Pink Pills. This she decided to try. After using a few boxes she found the pills were helping her, and she continued their use until her old-time health and vitality were restored. Now Mrs. Woodworth looks after a small farm of fifteen acres, handles all her housework, and says she never felt better or more energetic in her life. She gives credit for her present splendid health to Dr. Williams' Pink Pills, which she says are the best medicine she ever used, and strongly recommends the pills to all run-down people.

You can obtain Pink Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Why He Chose Canada

Englishman Thought W suited Prince Was Good Enough For Him

"What was good enough for the Prince of Wales is good enough for me," was the principle that guided W. W. Hubbell, late of Staffordshire, England, in choosing Canada as the future home for himself and family. "Yes," said Mr. Hubbell, "when a man like the Prince of Wales, who has travelled all over the world, buys a ranch in Alberta, it means that he has found Canada to be a pretty good country." The Hubbells, however, will take up farming in Manitoba.

Mrs. Hubbell also was questioned as to why Canada was selected. "Well," she said, "I had a great uncle who here lived to be 113 years old. I concluded it must be a healthy country, even though it does get cold at times."

Snakes in Ireland

Small Serpent is Found in the Vicinity of Dublin

Notwithstanding the legend that St. Patrick banished all the snakes from Ireland, one has been discovered in Dublin, and is now on exhibition in the national museum. It is a very small specimen, less than two feet long, and of the harmless variety. News of the find caused much comment in the press.

Snakes have occasionally been brought into Ireland from overseas, but they have never known to breed there.

Laugh a little more at your own troubles and a little less at your neighbor's.

Royal Pair Visited Tutankhamen's Tomb

Duke and Duchess of York Took Arduous Journey Across Desert

The Duchess of York, it is said, is thinking of publishing in book form the diary which she has kept of her big game hunting trip to Kenya. Few details of the tour have been made public, but those in the know in Nairobi say that the royal pair had some remarkable escapes from the lions, elephants and buffalo. On their way from Khartoum to Cairo the Duke and Duchess made a detour to the Valley of Kings to see Tutankhamen's tomb, travelling part of the way by car and the rest on donkey-back across the desert—a somewhat arduous journey. Several times the royal couple were carried over swamps and rivers pickaback by natives.

British Suffered Most From War

And No Nation Has Made More Sacrifices For Peace

So far as Great Britain is concerned, she has already disarmed. She has drastically cut down her army. Her air force is but the shadow of the great organization which it was at the close of the war, when it was superior in strength and efficiency to that of any other nation. The British navy now takes second place in the world, whether in point of numbers or of new ships. . . . No people in the world have made such sacrifices for peace; perhaps, also, no people in the world, not even our Allies, the French, have suffered so much from war.—London Daily Mail.

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer spout. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

SMP

Enamelled POTATO POTS

MRS. B. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario.—"I am now giving your medicine a fair trial and I surely find it doing the good and I am going to keep on taking it. I used to feel like a dead weight in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had headache, tiredness, pains in my back and across my body. I read letters in the newspaper saying that good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop. I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicine. They speak so highly of them. I am recommending them to my friends and I will gladly answer letters from women asking about them."—Mrs. BERT H. HART, Box 103, Cornwall, Ontario.

Mrs. Hart wants to help other women and is willing to answer letters from sick women asking about the Vegetable Compound.

CONTINUE WORK OF ASSISTING ARMY VETERANS

Ottawa.—Some interesting figures on the cost of soldiers' re-establishment have been submitted to the house. Not including the cost of administration, the department last year disbursed \$49,056,179 for pensions and re-establishment of veterans of the Great War. The cost of administration was \$2,455,645, or about 4.8 per cent. of the total disbursements.

In answer to suggestions that the department of soldiers' civil re-establishment should be abolished, Hon. H. S. Beaud told the house there was no hope that the machinery of the department could soon be dispensed with.

For many years the payment of pensions, Canadian and Imperial, the providing of treatment, the supply of artificial limbs, and all other services handled by the department, must go on. Personally, said Mr. Beaud, he was not anxious to remain as minister of the department one moment longer than was required by the department.

U.S. Border Officers Increase Outposts

Making Effort to Halt Unlawful Entry of Aliens

Minot, N.D.—Immigration forces operating along the international boundary line have increased - their outposts considerably within the last few days in a determined effort to halt the unlawful entrance of aliens into this country from Canada, according to F. A. Winsor, of Port, N.D., inspector in charge of patrol, who is in Minot.

Not in many months, according to the official, have there been so many foreigners attempting or planning to make unlawful entrance into this country. However, with additional patrolmen available, and every foot of the border now covered by experienced men, it is believed the situation is well under control.

Business For Merchant Marine

Urges Policy to Secure an Increased Chilled Meat Trade

Ottawa.—In the course of the examination of the annual report of the Canadian Government Merchant Marine by the House of Commons committee on railways and shipping, Sir Henry Drayton, strongly urged the merchant marine management to undertake a policy to secure an increased chilled meat trade. New Zealand, he said, was carrying to Britain at the same rate used by Canadian lines because they were contracting for maximum loadings.

Canadian Wine Theological Prize New Haven, Conn.—Prof. W. C. McIntosh, a Canadian and a graduate of McMaster University, Toronto, has been awarded the Bross prize of \$5,000, which is given once in five years by the Lake Forest University of Chicago for the best theological works. Prof. McIntosh is a member of the faculty of Yale Divinity School.

Fruit Growers Accept Proposition Vernon, B.C.—The directors of the Associated Growers at a meeting here accepted the proposition from wholesale dealers of the prairie provinces whereby 80 per cent. of the jobbing trade guaranteed full support in distribution of British Columbia fruit crop through the Associated Growers' own representatives.

Many Divorces Granted Ottawa.—Thirty-one divorce bills were handed in their various stages within twenty minutes in the House of Commons recently. A score passed committee stage and were given final reading in the first fifteen minutes. The rest were given second reading and went to the private bills committee.

Estimates Smaller This Year Ottawa.—A vote for \$21,500 covering salaries in the department of soldiers' civil re-establishment was passed in the house after considerable discussion. This year's estimate is \$2,320 less than last year's vote.

U.S. Would Limit Spread In Grain Quotations

Washington.—Adoption of rules by the grain exchange limiting the spread in daily quotations was recommended by Secretary Jardine as a means of preventing unreasonable fluctuations and manipulation of grain prices. The recommendations were contained in a report on the preliminary investigation by the department of agriculture, under the Grain Futures Act, of the sharp fluctuation in future grain quotations on the Chicago board of trade, beginning in January.

Suggested Relief For Unemployment

Britain Should Co-operate With Dominion For Railroad Orders London.—That the British Government should co-operate with the overseas dominions to assure a regular flow of orders for bridges, steel rails and all kinds of heavy engineering equipment for railroads, in order to relieve the grave unemployment existing in English and Scottish yards, was the proposal made to Premier Stanley Baldwin at a conference with J. T. Brownlie, president of the Associated Engineering Union, which seems likely to be adopted.

The state is ready to give support to any practical scheme for the relief of this unemployment, said Mr. Baldwin, and the idea that the government should co-operate financially with the dominions, while at the same time giving some form of limited subsidy to idle traders here in an effort to stimulate empire development, is warmly received.

Saskatchewan Wheat Pool

Big Membership Campaign Is Planned To Commence Shortly

Regina, Sask.—Dwarking any previous similar efforts, the management of the Saskatchewan wheat pool, immediately following the provincial elections are, will start a province-wide movement to obtain 2,000,000 additional acres under contract. Organization work for the effort has already been started at the head office in Regina. At the same time it will attempt to obtain the necessary percentage of acreage for the coarser grain pool, which will operate for the first time this year. The initial move for coarser grain acreage is the mailing of the contracts to all wheat pool holders.

Anti-Soviet Chief Ends Life

Denied Release From Prison Throws Himself From Cell Window

Moscow.—Notified recently that there was little chance of his liberation, General Boris Savinkov, notorious anti-Bolshevik leader, has committed suicide by throwing himself from the window of his cell. He served a long term on a multitude of charges growing out of his seven years' struggle against the Soviet regime. His trial, on August 28, 1924, at which there was neither prosecution nor defence, constituted probably the most dramatic case that ever came before the revolutionary war tribunal.

Jelliffe Made Chairman.

London.—Viscount Jelliffe, former naval commander and former Governor-General of New Zealand, has accepted the chairmanship of the council of overseas settlement. The council was recently formed under the auspices of the Church of England for the dissemination of information with regard to openings for settlers overseas and for the purpose of looking after the selection and welfare of emigrants.

Colonial Office in Britain

London.—The Morning Post, dealing with the proposed reorganization of the colonial office, says it doubts if the word "colonial," in connection with the office, really offends the susceptibilities of the overseas dominions. "This agitation about a mere name seems peculiar and shallow," the Post adds.

Discuss Postal Salaries

Toronto, Ont.—Postmaster-General Hon. Charles Murphy has asked all branches of the postal service to send representatives to Ottawa to meet a sub-committee of the cabinet to discuss a revision of salaries. It has been known here.

Voted For The Budget

J. FRED JOHNSTON, M.P. for Last Mountain, who resigned his position as chief whip of the Progressive party, as a result of voting for the budget in opposition to his leader.

Senate Vacancies

Government Awaiting Outcome of Proposed Provincial Convention

Ottawa.—The possibility that the proposed inter-provincial conference on senate reform might result in a reduction in the membership of the senate was suggested in the upper chamber as a reason for the delay in filling the seven vacant seats in the senate. Answering, Raoul Dandurand, government leader, said that his impression was that the government had not filled the vacancies because it was awaiting the outcome of the proposed provincial convention on the senate.

Senator Loughheed added that perhaps the approaching general election might have something to do with the delay.

Creamery Plant For Bulleya

Moore Jaw Firm Completes Arrangements For Opening Branch

Bulleya, Sask.—Complete arrangements have been made with the management of the Western Creameries of Moose Jaw, to establish a branch of the firm in Bulleya. A. J. Jones, representative of the creameries, was here last week and documents were signed. The entire issue of stock covering the enterprise was quickly subscribed. A site has been located and inspected and arrangements made to begin work in the very near future. The management expects to have the plant in operation by the first week in July.

Build New Elevators

Saskatchewan Wheat Pool Has Mapped Out Programme

Regina, Sask.—The Saskatchewan wheat pool has decided to build elevators at the following fifteen points: Balgonie, Indian Head, Delwade, Humboldt, Watrous, Colville, North Kinley, Broderick, Dinsley, Stoughton, Dubuc, Milestone, Yellowknife, Bulleya and Vantage.

At none of these points, it was stated, is there a farmer-owned elevator and all have more than 10,000 acres under contract to the pool.

Will Use British Banks

London.—The Daily Telegraph reports that the Vatican intends to make large financial deposits in Great Britain and that there is keen competition among the banks to secure this business. Before the war the Vatican banked largely in Germany, and it is said to have suffered much loss through the depreciation of the mark.

Will Call Polar Ship "Peary"

Chicago.—Donald B. MacMillan, the Canadian-born leader of the proposed MacMillan Polar expedition, in which an attempt will be made this summer to reach the North Pole by aeroplane, has entered an official request to change the name of his Polar ship to Peary in honor of the discoverer of the North Pole. The vessel is scheduled to leave Boston June 17.

Col' Denington Resigns

London.—Lieut.-Col. Ian Oswald Denington, whose former wife, Dorothy Muriel Denington, lost a breach of contract case against him recently in a trial marked by sensational testimony, has resigned his commission in the army. The reason is not given.

Canadian Chief Of Staff Sees Danger Of War

Ottawa.—Addressing a military gathering here, General J. H. MacBrien, Canadian chief of staff, said extolling peace would not prevent war. "No thinking man can read the daily papers, make an examination of the frontiers in Europe, read of the trade rivalry between the United States and Japan, realize the huge importance placed by commercial countries on control over such strategic positions as the Suez Canal and the Straits of Gibraltar, without coming to the conclusion that, sooner or later, there must be grave danger of war," the general said.

Industrial Disputes Act

Amended Act Passes House of Commons

Ottawa.—With three changes, the bill to amend the Industrial Disputes Investigation Act (commonly known as the Lemieux Act) went through all stages in the house. The bill was made necessary by the decision of the privy council which found the existing I.D.I. Act ultra vires, in that it encroached on provincial jurisdiction. The purpose of the bill, generally speaking, is to limit the application of the act to matters not within the legislative jurisdiction of any province. There is a further provision to take advantage of the provisions of the Dominion act should it so desire.

New Equipment For C.N.R.

President Thornton Says \$18,940,625 Will Be Spent On Improvement

Ottawa.—Sir Henry Thornton, before the railway and shipping committee of the House of Commons, gave the figure from the 1925-1926 budget of the National Railways to be spent upon construction, betterment and new equipment as \$18,940,625. New equipment is, he said, to include 500 freight cars for carrying automobiles, five observation-sleeper cars, and five mountain type engines.

Sir Henry did not think the grand total of assets would be increased during the present fiscal year as during the past fiscal year.

Brian's Reply To Germany Courteous

British Foreign Office Received Copy Of Security Pact Proposal

Paris.—Foreign Minister Briand sent to the British foreign office at London, a copy of his reply to Germany, regarding the German security pact proposal. It is understood it is a courteous document, which takes Germany's good faith for granted, leaves the question of the Polish frontiers to future negotiations, and avoids mention of any condition to an acceptance of a proper security plan.

Traffic In Arms

To Exclude Armored Cars and Flame Throwers From Control

Geneva.—The military commission of the League of Nations international conference for the control of traffic in arms and munitions has decided to recommend that armored cars, armored trains and flame throwers be excluded from control. The full conference must pass upon the commission's recommendation.

Uge Rural Credits

Ottawa.—A resolution urging the government to bring down legislation, at the present session of parliament, for the establishment of an adequate rural credit system, was passed by the banking and commerce committee of the House of Commons by a large majority.

Trotsky Joins Russian Cabinet

Moscow.—Leon Trotsky, deposed head of the Soviet army, who recently returned from seclusion in the Caucasus, was elected a member of the Pre-idium by the Federal Congress of Soviet States. He was given an ovation by the congress.

Viscount Milner Is Dead

London.—Lord Milner, former secretary of war, who had been ill for some time, died at his residence, Sturry Court, near Canterbury. Lord Milner had been suffering with sleeping sickness.

BRITAIN TAKING MEASURES TO SUPPRESS REDS

London.—The Daily Chronicle says the police are taking strong measures against the Bolsheviks in London. The permits of numerous persons to remain in England have been cancelled and the renewal of others refused, the number thus dealt with mounting into the hundreds.

Quantities of literature also have been seized. In consequence of these measures, the paper declares, the Bolshevik bookshop here, where the newspaper Pravda, the Izvestia, and other publications were sold, has been closed, and the official Bolshevik press in England, the Soviet Union Review, has ceased publication.

The staffs of the Russian commercial establishments are being greatly reduced, says the Chronicle, but it is unaware whether this is due to the police campaign or merely to economy.

Declares Canada Is Interpreter Of Ideals

President of Toronto University Delivers Address in London

London.—Canada's position as the interpreter of ideals between the two great English-speaking nations, Britain and the United States, featured the address of Sir Robert Falconer, president of the University of Toronto, delivered here at a large gathering presided over by the Lord Mayor of London.

Sir Robert declared it was evident Canada now held an extraordinary position of vantage, compared with even half a century ago. Britain regarded Canada with the pride of a mother over her first-born.

Canada, said the speaker, would perform her function of interpreter between the two nations, not of set purpose, but by simply being true to herself and living her own life. Even more important than that was the function which Canada might perform in interpreting to the United States the character of the British commonwealth.

Wheat Carry Over Smaller

World Supply Is Sufficient Until New Crop Is Marketed

Washington.—Indications of a smaller world wheat carry over on July 1 were published by the department of agriculture. The carry over was estimated at 125,000,000 bushels as compared with 202,000,000 bushels July 1 last year, and 255,000,000 bushels July 1, 1922. This indicates that sufficient wheat is available for the world's needs till the new crop comes upon the market, the department declared.

Megonigles For Southern Alberta

Winnipeg.—The Megonigles heard at a meeting here decided that a group of Megonigles, from the 130 recently arrived, will be settled in the sugar beet district of Southern Alberta. The meeting was held in the office of the Canada Colonization Association. Many of the newcomers are experienced beet growers. They all had money, and paid their own fares to Canada.

Funding French War Debt

Paris.—The first active negotiations for funding the French war debt to the United States will begin within 15 days.

The form in which the negotiations will be conducted is undecided, but it is indicated they will be directed through established diplomatic channels, rather than by a special French envoy to the United States.

Famine Threatens Parts of Russia

Harbin, Manchuria.—With prospects of a famine in Western and Southern Russia, owing to the crop failure, Moscow officials are allowing Manchurian wheat to enter the Soviet diet free. A telegram received here from the Russian Government says they are preparing to purchase for cash large quantities of wheat.

Delegation To Russia

London.—The British Labor party has decided to accept the official Russian invitation to send a delegation to Russia to study the possibilities of an improvement in Anglo-Russian trade.

NOTICE IS HEREBY GIVEN that
if all arrears of taxes imposed in
1921 in respect of any parcel of land
situate within this Municipality are
not paid on or before the first day
of July next such land will be dealt
with under the provisions of "The
Tax Enforcement Act," 1922, with a
view to obtaining title in the name of
the Municipality in respect of such
land.

Dated at the Town of Stony Plain
this 11th day of May, 1924.
F. W. LUNDY,
Secretary-Treasurer.

International Council of Women

In connection with the Quinquennial Conference in Washington, May 4th to 14th, sixty-five delegates from Great Britain and Europe of the above organization sailed on the Canadian Pacific S.S. Montserrat from Liverpool this month. Delegates from South Africa, New Zealand and Australia are also included. Among those from Great Britain are Lady Trautman Eves, Lady Salvesen, Lady Nott Bower, Lady Adam Smith, Lady Egerton and Mrs. George Cadbury.

The French delegates sailed about the same time on the Canadian Pacific S.S. Marlborough from Cherbourg and are shown in the photograph from left to right, standing: Mme. Heimann, Founder of the French Association for

Binchen soldiers; Mme. Onette Arnould, the well known painter and Mme. Annette Fousier of the transmigration service of emigration. From left to right, sitting: Mme. Emilie Fouquier, Mme. Lucienne Bernheim, Mme. Pichon-Landry, Mme. Avril de Sainte-Croix, President of the French Association, Member of the League of Nations, and delegate to the League of Nations, Mme. Legrand, widow of the well-known French general, and Mme. Evard, Chevalier of the Legion of Honour and General Inspector of Public Instruction.

These ladies will be given official reception in Canada and will visit Quebec, Montreal, Ottawa, Toronto, Hamilton and Niagara Falls as guests of the Local Council prior to attending the conference in Washington.

Here and There

The Good Roads Department of Manitoba expects to complete the Trans-Canada Highway through that province by October, the first. This will complete the road from Brandon west to the Saskatchewan boundary.

The city of Halifax, N.B., is planning to re-establish its Provincial Exhibition this coming fall according to Mayor Murphy. The fair has only been held once or twice since the war prior to which it was an annual event.

The Canadian Trade Commissioner at Liverpool, England, is taking steps to interest Canadian business men in the export of crushed oyster shells to Great Britain. The United States exports 20,000 tons of crushed shells annually to the British Isles.

The official opening of Crystal Garden, Victoria's latest and finest Amusement Park will take place on June 20th. Celebrations, including a ball, processions, and sports, will mark the occasion and are scheduled to continue, until July 1st.

Navigation on the Great Lakes and the St. Lawrence is now open and has provided employment for hundreds of men from Montreal, Toronto and other cities who have been idle during the winter. Shipping circles are optimistic concerning the season just commenced.

It is announced that the Banff, Alberta, Pow-Wow and Indians Day celebration which takes place annually, will be held this year, July 22 and 24 in the Yoho Valley. On these days the Stony tribe of Indians in full regalia, hold their Pow-Wow and compete in contests of every kind.

There are approximately 2,207,009 persons attending school in this country. Of this number, 1,600 are at institutions for the blind and mute; 81,000 at vocational schools or classes; 14,000 at Indian schools and the remainder attend colleges, universities, subsidized primary schools and institutions for training teachers.

With a view to arranging a new trade and transportation agreement between Canada and the British West Indies, a conference is to be held at Ottawa in June which will be attended by representatives of the Governments of Canada, Bermuda, Leeward and Windward Islands, Barbados, Trinidad, British Guiana, Jamaica and British Honduras.

The gold mines of northern Ontario are said to have yielded a higher income during the first quarter of 1925 than in any similar period in their history. Estimates place the income of mining companies in the Porcupine district at nearly six million dollars and in the Kirkland District at one and a quarter millions.

John Hartney, Canadian Pacific Railway engineer, who has recently completed his 42nd year in the company's service, was the guest of honor at a banquet given by the Brotherhood of Locomotive Engineers on St. George's Day at Smith's Falls, Ont. Mr. Hartney, is President Beatty's special engineer and was presented with a gold cane.

In an effort to individualize the name of Saint John, N.B., the City Corporation, Board of Trade, and other organizations are in future to spell its name out in full. This port has grown rapidly in importance in recent years and in addition to being the winter headquarters of the fleet of the Canadian Pacific Railway, is also a port of call for numerous lines operating between Canada and Europe, as well as the centre of a large fishing industry.

FOURTH ANNUAL TOUR TO THE PACIFIC COAST.

Special Train from Winnipeg via
Canadian National Railways—
Entertainment Provided for at
Various Points of Interest en
Route.

PERSONALLY CONDUCTED

Personally conducted tours offer the best opportunity for familiarizing oneself with the country traversed. This applies to our own country as well as to the older settled countries of Europe. Canadian National Railways has, for many years, commencing immediately after the close of school for the summer holidays, conducted special parties to the Pacific Coast via Prince Rupert. The tour this year which will be the fourth will again commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and radio observation car, will leave July 6th. After stopping at various points of interest, the train will arrive at Prince Rupert on July 11th. At this latter point the party will embark on a palatial steamship for a cruise of 550 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria, may have their tickets read "Victoria" as their destination without any additional cost.

This tour is an outing that appeals strongly to teachers, as well as to professional men, and business men and women.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes returning, etc.

FOR SALE—A Remarkable bargain; 30 acres, full 2-story frame house with 14 rooms, porch, basement, furnace, bathroom; stable and chickenhouse; all fenced; beautifully located at Glory Hills; large pines on the premises and a brook running thru the place; an ideal living place, most suited for chicken farm, truck gardening, etc.; price \$2200, \$600 cash down, balance on easy terms; house alone is worth \$3500; owner living in the States. Apply to John Bauer, living on the same quarter section, 2 1/2 miles north and 1 mile west of Stony Plain, Good roads. 44

MAIL CONTRACT.

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa, until noon, on Friday, the 19th June, 1925, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the route Holborn and Stony Plain, from the 1st October next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Holborn and Stony Plain and at the Office of the Post Office Inspector, Calgary.

Post Office Inspector's Office, Calgary, 4th May, 1925.

D. A. BRUCE,
Post Office Inspector.

CANADIAN NATIONAL PROMOTES RESOURCES

SINCE its organization, the colonization and development department of the Canadian National Railways has given attention to the development of the natural resources of the territory traversed by Canadian National lines; and, in order to give greater effect to the activities of this branch of the department, it has been decided to place a representative in charge in the western region, whose chief duty will be to gather information and promote further the development of these resources, more especially in the provinces of British Columbia and Alberta. In this way, the facts obtained can be brought to the attention of those interested, with capital.

The office for this district will be at Edmonton, in charge of R. C. W. Lett, the General Agent, Colonization and Development Department, Canadian National Railways, who is well fitted for the work, having had considerable experience in connection with mining and lumbering, and in the last few years has made a very close study of the natural resources of British Columbia and Alberta.

WORLD HAPPENINGS BRIEFLY TOLD

Two hundred cases of leprosy have been discovered among street peddlers at Rostov, Russia. The medical authorities are isolating the victims.

A rumor that Finance Minister Callaux and the Bank of France authorities were discussing further inflation of the currency was denied by the ministry of finance.

The Japanese Government has contributed about \$11,000 to aid in the proposed aeroplane flight to Europe this summer, which will be directed by the Asahi Shimbun, a newspaper.

Fifty-four surviving members of the original 239 in the Brigade of Montreal Garrison Artillery who left Montreal 40 years ago to join the Northwest Field Force in the quelling of the Riel Rebellion, held a re-union.

A resolution urging the government to bring down legislation at the present session of parliament for the establishment of an adequate rural credit system, was passed by the banking and commerce committee.

The first consignment of mail from England to San Francisco by a partial air route, left Southampton aboard the steamship Aquitania, to be taken from New York to San Francisco by aeroplane.

Taking action on a largely signed petition of storekeepers, the Vancouver city council rescinded the Early Closing Bylaw and groceries may now be purchased in Vancouver at any hour of the day or night.

The Prince of Wales, it is officially announced, has definitely accepted the invitation to visit Chile upon the termination of his visit to Argentina. It is expected the Prince will arrive in Chile about August 30 by special from Buenos Aires.

Capt. Donald B. MacMillan has purchased for his forthcoming Arctic expedition the steam yacht Rowena, owned by McGill Goodland, New York editor and yachtsman. Capt. G. F. Steele, of Roxbury, will command the Rowena on the voyage to northern waters.

"Dago" is derived from the Spanish form of James, and San Diego—or St. James—is a common name in South American countries.

Watch Your Daughter

Chatham, Ont.—"I gave Dr. Pierce's Favorite Prescription to my daughter and it did her a world of good. She had always been delicate, had functional disturbances and was very nervous and weak. She also had a lot of trouble with her stomach. But after I began giving her the 'Favorite Prescription' she did not suffer, her nerves were good, she began to get stronger and finally developed into a healthy, robust girl. And what's more, the 'Favorite Prescription' did for my daughter, it will do for other girls if they will only try it."—Mrs. Fred Crochman, 30 Adelaide St. N., All dealers.

This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package of the tablets.

Canada Leads the Way

Is Opening Doors of Britain For Import of All Cattle

Canada, having gained in 1922 an entry into the United Kingdom for her store cattle, has been insistent for the wider opening of the door to include pedigree stock. It can scarcely be imagined that the old-established herds of Scotland and England will allow an infusion of blood from the folds or the herds of younger Canada; what is more apparent in the insistence of the western dominion is to drive the thin edge of the wedge for a wide open door at all the ports of Britain for the landing of all classes of cattle—store, fat and pedigree. Pressure in that direction is not without its bearing on the cattle future of South Africa or Rhodesia. It would mean that when the day arrives for the export of store cattle from these shores they will, if accompanied by the necessary evidence of clean health, have admittance to the live cattle markets of Britain—Bulwary Church.

Painful Sprains, Bruises, Restored By Nervine

There is soothing power in Nervine that has made it famous for nearly fifty years past. It strikes in deeply, it penetrates quickly, it takes away the pain from a sprain, and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Gout, if Neuralgia bothers you now and then, use Nervine. It is a sure remedy for all these troubles. Get a large 35-cent bottle from your dealer today.

Caticura Promotes Permanent Hair Health

Shampoos with Caticura Soap, with light applications of Caticura Ointment when necessary, tend to free the scalp of dandruff and minor eruptions, and to establish a permanent condition of hair health.

Angus, MacKay & Co., Ltd., 100, Queen's Quay West, Toronto, Ont. Sole Canadian Agents, "The Caticura Co., Ltd., 100, Queen's Quay West, Toronto, Ont.

Museum Opened At Munich

Said To Be Largest Of Its Kind In The World

Munich was on May 5 with her streets gaily fested and thronged with visitors from all parts of the country to witness the official opening of the Deutsches Museum, construction of which was begun before the war. The museum building is said to be the largest of its kind in the world. Several members of the cabinet attended the ceremony, Chancellor Luther coming from Berlin by aeroplane.

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Killehen, St. George, Ont., writes: "After having a severe attack of pneumonia I was left in a weak and run-down condition. My nerves were so bad I could not sleep nights, and in the day I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take my bed for weeks at a time, but one day I read about

MILBURN'S HEART AND NERVE PILLS

so decided to try them. After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 35 pounds in weight. I am now more than able to do all my own housework as well as considerable outside work. I cannot recommend Milburn's H. & N. Pills too highly for those suffering as I did."

Sugar Beet Acreage

Well over 6,000 acres have been prepared for the growing of sugar beets in the area tributary to the new beet sugar factory which is being erected at Raymond, Alberta. Work is now being started on the factory which will be rushed to completion.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early will prevent incipient condition from becoming chronic and saves hours of awful suffering.

More Life Insurance Written Ordinary life insurance written in Canada shows a decided increase this year so far, as compared with that of the corresponding period in 1924. The increase in March over February was from \$25,000,000 to over \$35,000,000.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most effective remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can be taken internally.

It is customary among certain sects of Aiglers to bury the dead with the bottles of medicine used during their last illness.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Some poets soar upward after the infinite, while others remain on earth and satisfy their longing for pork and beans.

Minard's Liniment for Backache

SUNDAY SCHOOL LESSON

MAY 24

SAUL BEGINS HIS GREAT CAREER

Golden Text: I determined not to know anything among you save Jesus Christ, and him crucified. 1 Cor. xlii. 2.

Lesson: Acts 9:20-31.

Devotional Reading: Joshua 1:1-9.

The Text Explained and Illumined I. Paul Proclaims Christ at Damascus, verses 20-22. Upon his return from Arabia (see The Historical Background), Paul joined the circle of disciples at Damascus and proclaimed Jesus to be the Son of God. His bold preaching greatly amazed the Jewish authorities, who knew what his course had been at Jerusalem and what his purpose had been in coming to Damascus. But Paul's power as a preacher for Christ increased, and he confounded the Jews, proving that this is the Christ. "The somewhat unusual Greek word for proving means literally putting together, and so is used for the putting together of arguments."

II. Paul's Escape From His Enemies at Damascus, verses 23-25. The defeated Jews plotted to kill Paul, and this became known to him. Learning that the Jews were keeping watch day and night at the city gates to prevent Paul from leaving the city, the Christian disciples lowered him in a basket over the city wall, letting the basket down from the window of a house built either against the wall or top of the wall. In somewhat similar fashion the spies escaped from Jericho, Joshua 2:15.

Saskatchewan Income Tax

Saskatchewan pays less income tax than those of the other two prairie provinces. In answer to a question in the House of Commons, it was stated that the total amount collected in federal income tax in the fiscal year just ended was: Manitoba, \$3,477,069; Saskatchewan, \$872,028; Alberta, \$1,163,911.

BIRTH OF A NATION!

Stony Plain and District.

Nikolaus Bauer, father of John Bauer, Glory Hills, has been granted his naturalisation papers by Judge Dubuc.

John Keel, from Bonnie Scotland, and his family, arrive in Stony this week and will be placed on the Reg. Faulks' farm at Mewasht. Supt. Lucas, of the S.S. board, states that this was the last vacant farm in this district on his list.

Holborn U.F. Local is planning a big time Monday next, Victoria Day, this being the first anniversary of the beginnings of their hall. The day's proceedings will wind up with a big dance in the hall, and it promises to be a memorable occasion.

Thos J. Navestad, the gent, who defrauded a local merchant out of \$25 worth of goods last winter, was sentenced to two years' imprisonment by Magistrate Primrose for passing a worthless check on an Edmonton merchant.

Martin's orchestra supplied the music at the dance given in U.F.A. hall at Winterburn Friday night, and delighted a goodly number of patrons. Assemblyman Washburn was present.

Owing to the busy season on the farms, the dance at Muir Lake schoolhouse did not draw the usual goodly number of patrons. Kulaks supplied the music.

Mr J. Tennis, from Hardisty, who recently purchased the Joe Lutz quarter-section at Golden Spike, moved on the place this week with his family.

There are now 32,000 hammers in the Alberta Wheat Pool, according to a statement made by a director of the pool last week.

Red Cross Classes

The Red Cross Class met in the town hall on Thursday, May 14 at 8 p.m.

The address for the evening was given by Dr Roy Walton. The subject of the lecture was, "Notifiable Communicable Diseases" and was very interesting and instructive.

The next meeting will be held on Thursday, May 21st, at 8 p.m. in the town hall.

Women's Institute Notes

The Stony Plain W.I. met at the home of Mrs Wm Robertson on Wednesday, April 13, 1925. After the business was disposed of, the members gave two impromptu speeches which were much enjoyed. Following this a dainty lunch was served by the hostesses Mrs Wm Robertson and Mrs Donaldson, after which the meeting dispersed.

The annual convention of the Alberta Women's Institutes will be held at the University of Alberta on May 26, 27, 28 and 29 next.

Alberta women were represented at the International Council of Women last week in Washington, D. C. by Hon Mrs Parly, a member of the Alberta Cabinet, and Mrs. R. B. Gunn, president of the U.F.W.A. Mrs Parly took part in the discussion which was held on the Community Property Bill introduced by her in the Legislature. The act definitely establishes community property rights as between husband and wife.

Sporting Notes.

THE SPORTING EDITOR is still receiving congratulations from ball fans for promoting the scheme to provide funds for this year's ball team.

One enthusiast suggests a ballot be taken for the election of the six prominent ball enthusiasts who will give the donations, and that the ballots be sent to The Sun; the balloting to be kept open for two weeks.

Thus will be eliminated the painful job the club officers have the beginning of every season of going round with the hat collecting coin from the oft-times non-too-willing subscribers.

The Sun will not undertake to nominate the Big Six, as anyone present at the principal games the past season can do this for himself.

The tryout on Sunday showed that the Regulars have the very best material available to make a winning team this season. Such good stand-bys as Sam Zucht, Geo Graden, Val Mohr, Conrad Fuhr and half a dozen others were on deck and demonstrated in an able manner that they were well worth backing.

Herman Loeblich, the well-known ball player, is pitching on Monday next for the team from the Central Garage, Edmonton. Mr. Thompson, the manager, having last week signed him up for the season.

A ball game was played on the local grounds Sunday between a picked-up team and a bunch composed of part of the Regulars, the latter making it very interesting for their opponents.

On Friday last a ball game was played between the Public School Juniors and the P. S. Seniors. A very exciting game was played, in which the Juniors won; score 12 to 11. Batteries—Juniors, Jie Mohr p, Geo Miller c; Seniors Aug Mohr p, L. Oatway c.

The baseball game at Duffield on Sunday was won by Onoway—Score 11-4.

In view of the fact that Stony's first Wednesday half-holiday this year falls on the King's Birthday, it has been suggested that it be celebrated here by running off a good program of sporting events at the Fair Grounds.

All those interested in football, and who play the game, are requested to leave their names with John Barth, at the Pool-room.

Stony Plain and District

Meridian Lodge held a session in their hall on Tuesday evening.

Mr J. Strassburger shipped a car of wheat this week.

A delightful surprise is in store for local theatre goers, when the show which is billed to take place about the middle of June, is put on. The ladies of the town are at present busily engaged on the preparatory work.

Bright Bank School reopened Monday, the popular teacher, Mr. Lawton having recovered from his recent operation.

Farmers who trade in stone of the towns west of Stony are having their trouble getting rid of their eggs, the so-called hen-product, fearing trouble from the egg inspectors who are now enforcing the new regulations.

Farmers and others are again warned to comply with the regulations on setting out fires—a resident of Golden Spike was fined \$10 on Tuesday for a breach of this Act.

Get your station route cards printed at The Sun office.

Saturday Night's Meeting.

Ducholke's Hall was fairly well filled Saturday evening when President Biston opened the meeting of Liberals. Hon Chas Mitchell, leader of the opposition in the House gave a splendid address, stating clearly the position of the Liberal party, and commending their policy in a very splendid manner.

Captain Bowen, M. L. A. Mrs Wood and J. Reilly, also gave addresses, the latter dealing mostly with the issues in Federal politics. Each speaker was listened to attentively, and appeared to make a good impression. The meeting closed with singing the National Anthem.

Some Nerve!

Don't it beat all the nerve some people have! A short time ago a letter came here addressed to "The Handsomest Man in Town," and the Postmaster opened it—News News.
